Opening Speech

Karen Halm

Karen Halm
Karen Halm
Halm

Hello, did you know that architecture and construction go beyond brick and mortar? My name is Karen Halm. I'm the principal architect and co-founder of **Spektra Global**.

With architecture and construction, we are actually able to create inspiring spaces. It is in these spaces that **we experience our happiest moments**. It is in these same spaces that **we also mourn for those we've lost**.

It is in these spaces that we break bread. As to whether we are gaining weight in the space or losing weight in the space, that's a different matter for discussion. But it's also in these spaces that we also create babies.

Architecture and construction go beyond the four walls. It goes beyond the roof over your head and the floor that you walk on. It actually impacts the way you live. It even impacts the way you play and work.

It also impacts the way you worship and the way you

think. So at Spektra, we create exceptional spaces. It's not just about buildings. It's about life experiences. It's not just about dreaming. But it's also about what you are experiencing in general.

So, stay tuned as we bring you more on the kind of spaces that impact the way you live life and what the future is bringing your way. I'll see you around again. **Cheers!**

Spotlight on Project of the Month **GHANA ICT HUB**

The Ghana ICT hub is a **'state-of-the-art'** physical infrastructure creatively designed to provide 4,000 square metres of 'life-giving' space. The hub will be fitted with ancillary facilities, which will include laboratories for technology training / research, co-working spaces for start-ups, a Tier-3 data centre, conference facilities and yes, restaurants.

The GH-ICT Hub is scheduled for completion in approximately 18 months from its date of commencement (last quarter of 2024). When completed, the new Hub intends to train over 200,000 youth in ICT and digital skills, and also generate more than 100,000 jobs within the first three years.

This ICT Hub will be an ultra-modern office facility, providing cozy office spaces and meeting venues for more than one hundred (100) Tech companies which will incubate new ideas and innovations, driving the start-up buzz in the hub after its completion.

GUNG-HO: An Evening of Celebration Awaits!

Get ready to embrace the spirit of the season at Spektra Global's highly anticipated GUNG-HO end-of-year extravaganza! As we approach the culmination of this incredible year, we're gearing up to celebrate our collective achievements and usher in the festive cheer.

Anticipation is building as the stage is set for an unforgettable night filled with laughter, joy, and heart-warming conversations. This event promises an evening where camaraderie and unity take center stage, echoing the successes and bonds that define our Spektra family.

With delectable treats, captivating entertainment, and an atmosphere brimming with excitement, GUNG-HO is more than just a party; it's a celebration of our journey together. As we bid farewell to this remarkable year, we eagerly await this grand affair, knowing it will be a testament to the dedication and spirit that propel us forward.

Stay tuned as that will mark the conclusion of a fantastic year and ignite the spark of anticipation for the limitless possibilities that lie ahead.

SEE YOU!!!

Interior Design Inspiration for **CHRISTMAS AND NEW YEAR**

A Minimalist's Living Room Design for Yuletide...

Christmas is the perfect time of the year to get creative and to show off your superior interior decorating skills. If the idea seems appealing to you but your living room design or limited floor space doesn't allow for it, then, this is a love letter to you!

Perhaps, for some reasons, your home happens to be bare without any festive cheer this season, all you have to do is add little symbols or tiny Yuletide elements and accessories around the house to spruce up your space.

Style Tip: In the absence of the popular Christmas tree, simply place a wreath on a door or a wreath garland on an open shelf or across a wall. Even small details such as single ornaments placed on hooks or ledges around the room will go a long way to usher in the festive cheer.

Visit Spektra Global today, the premier place for creative ideas on personalized, cozy and breath-taking spaces.

From
Marking...

...to **Making**

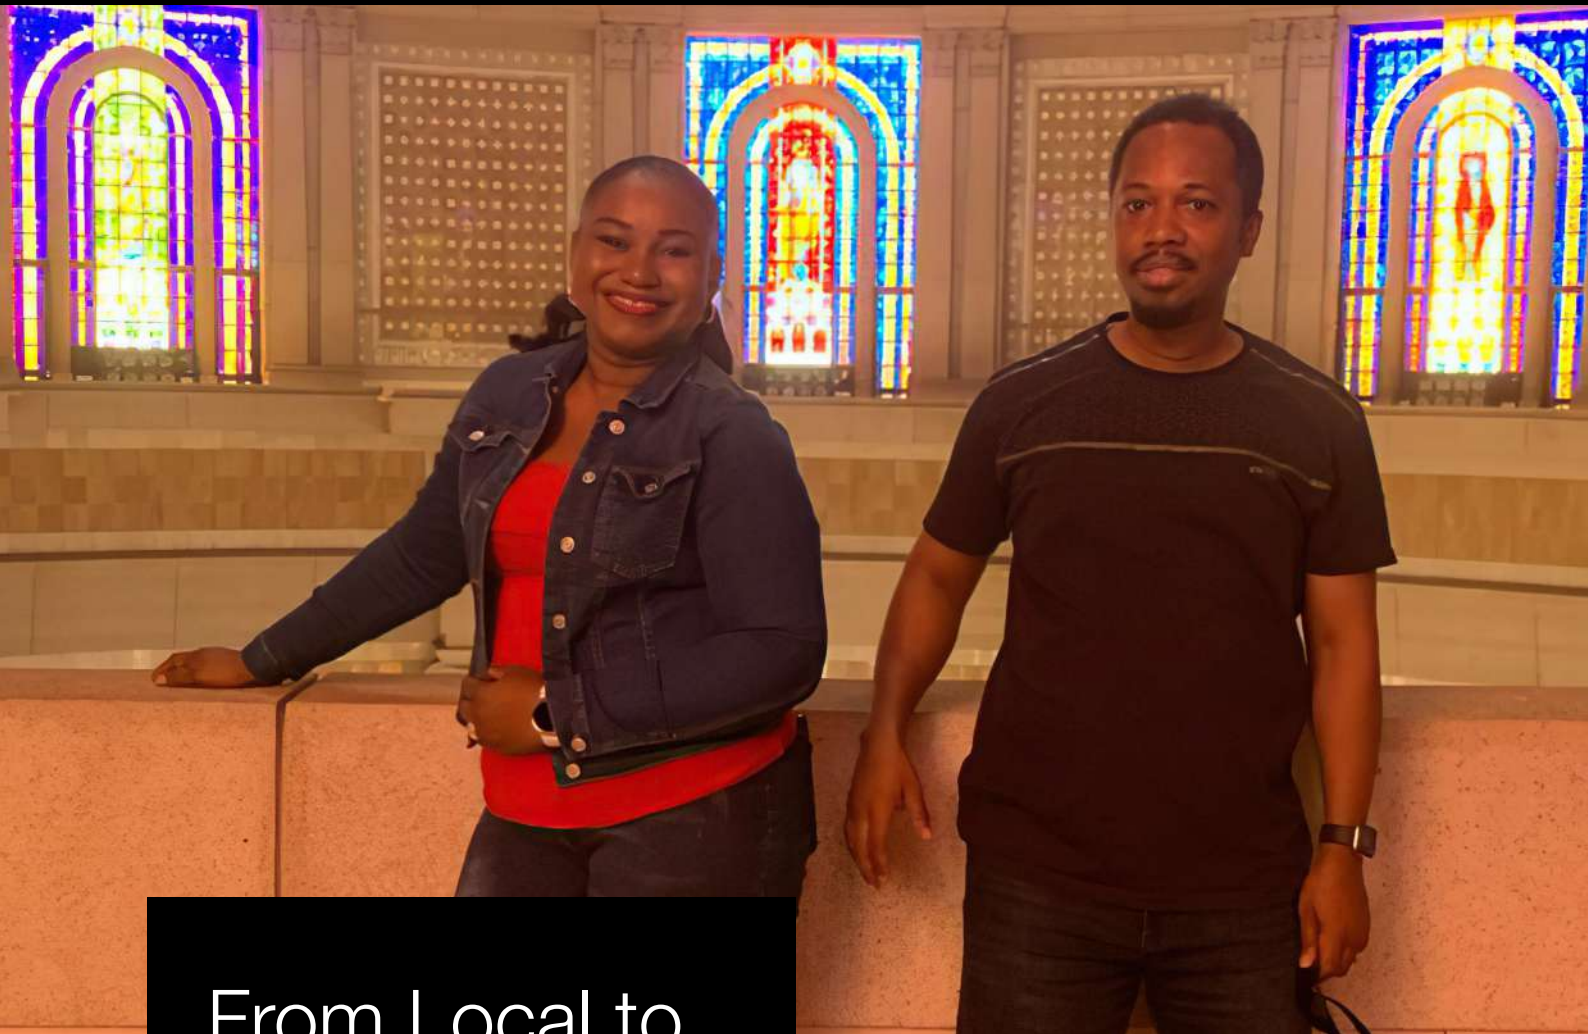

From architectural concepts, to first ink marking, right to mind-blowing interior finesse, we understand that every single element must be harmonious to create breathing spaces that truly transcend time.

At Spektra Global, our starting and finishing qualities, demonstrate our capability to strategically handle any project with expertise – from conception to execution.

From Local to Global Creating Spaces...from Local to Global

From Local to Global: **Excerpts from Trip to Basilica**

In the world of architectural brilliance and design inspiration, there are spaces that leave an indelible mark, capturing human imagination and shaping their surroundings. For the creative visionaries behind Spektra Global, William and Karen, a recent trip to the Basilica of Our Lady of Peace in Yamoussoukro was an opportunity to immerse themselves in architectural splendor.

As they entered the vast expanse of the Basilica's magnificent interior, William and Karen found themselves in a masterpiece of architectural elegance. The meticulous design of

the Basilica, with its towering marble columns and resplendent stained glass, left them in awe.

For William and Karen, the Basilica serves as a compelling reminder that design has the power to create not just structures but also experiences. Just as the Basilica evokes a sense of reverence and wonder, Spektra Global's mission is to craft spaces that leave a lasting impact on those who inhabit them.

The meticulous attention to detail in the Basilica's

design parallels the commitment Spektra Global upholds in every project. From architectural vision to interior finesse, William and Karen understand that every element must be harmonious to create spaces that transcend time.

Just as the Basilica's architectural brilliance continues to inspire,

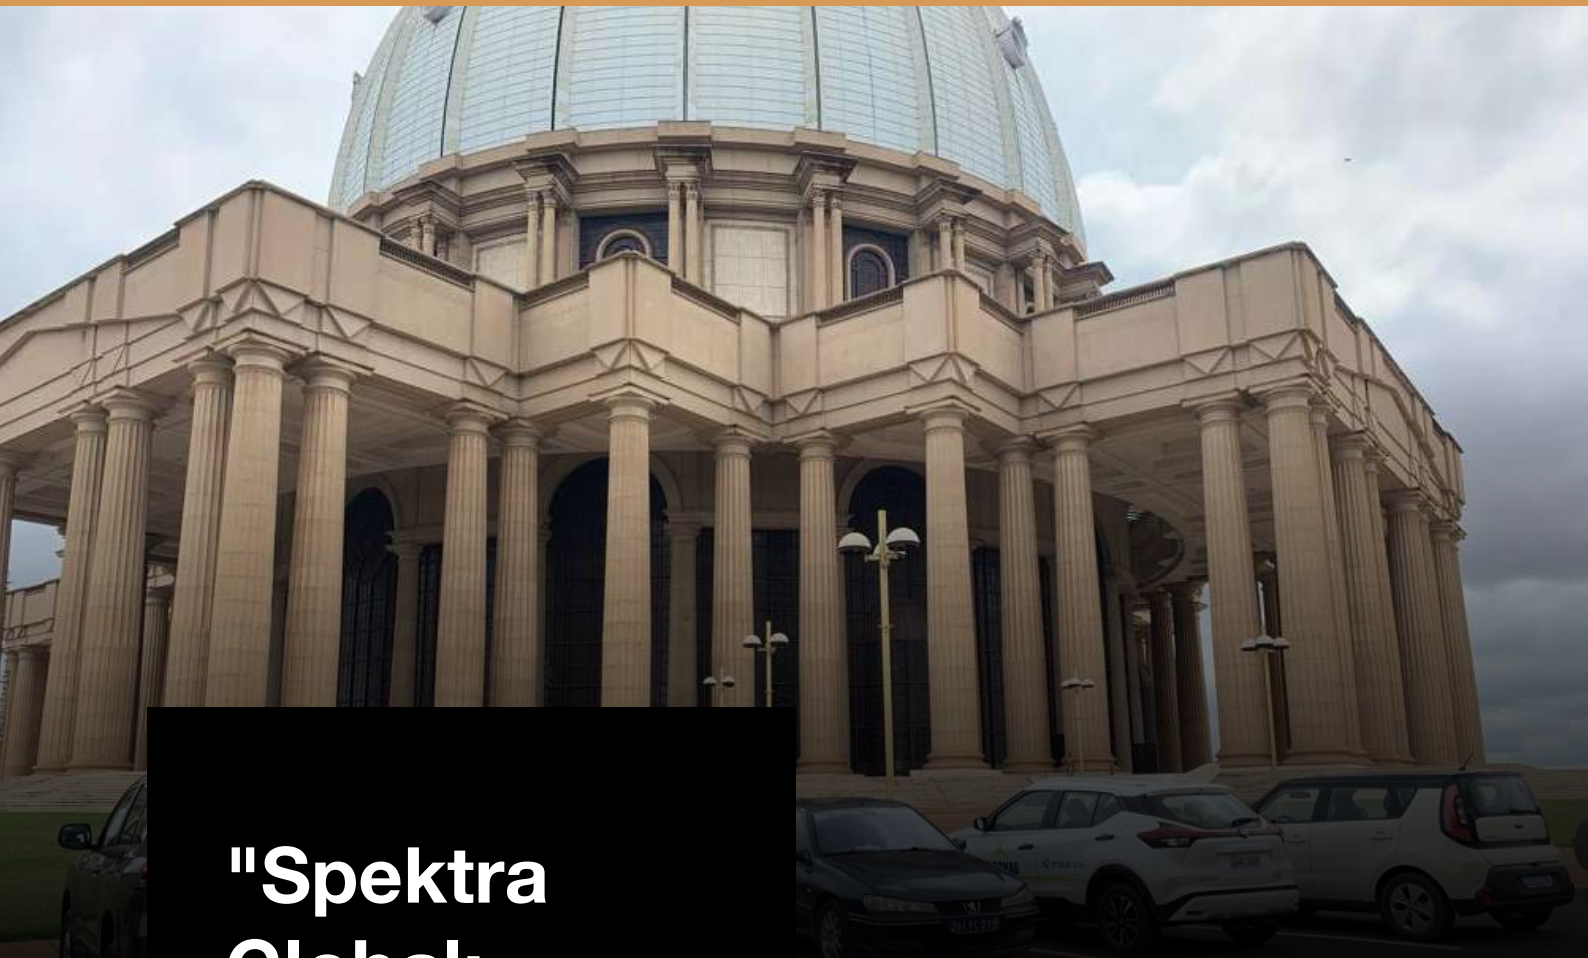

Spektra Global's vision is to shape lives through their designs. Each project undertaken by William and Karen seeks to tell a unique story and ignite emotions, transforming spaces into more than just erected physical structures.

Leaving the Basilica at Yamoussoukro William and Karen carry with them a renewed dedication to crafting spaces that inspire, enrich, and endure. They understand that every design choice is an opportunity to create something exceptional.

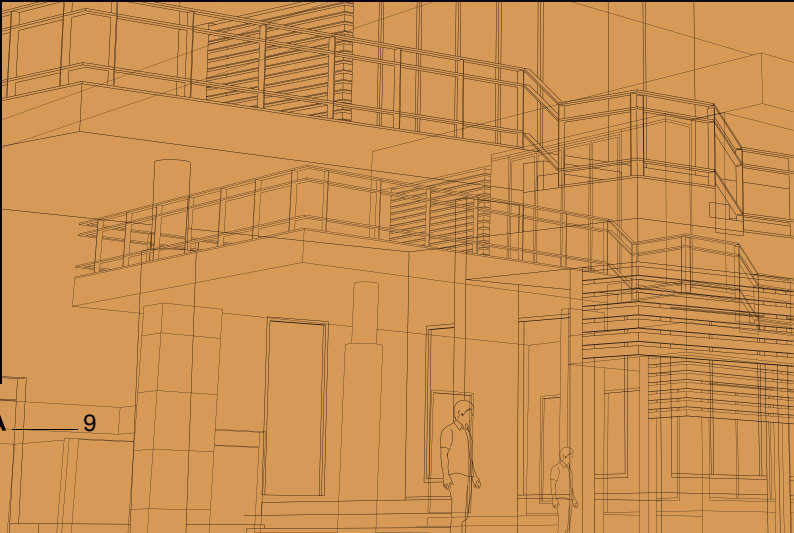

The Basilica of Our Lady of Peace has left an indelible mark on William and Karen, igniting their

passion to continue creating spaces that transcend the ordinary.

Just as this evidence of architectural wonder in Yamoussoukro stands as a symbol of magnificence, Spektra Global remains committed to a legacy of innovation, elegance, and design excellence.

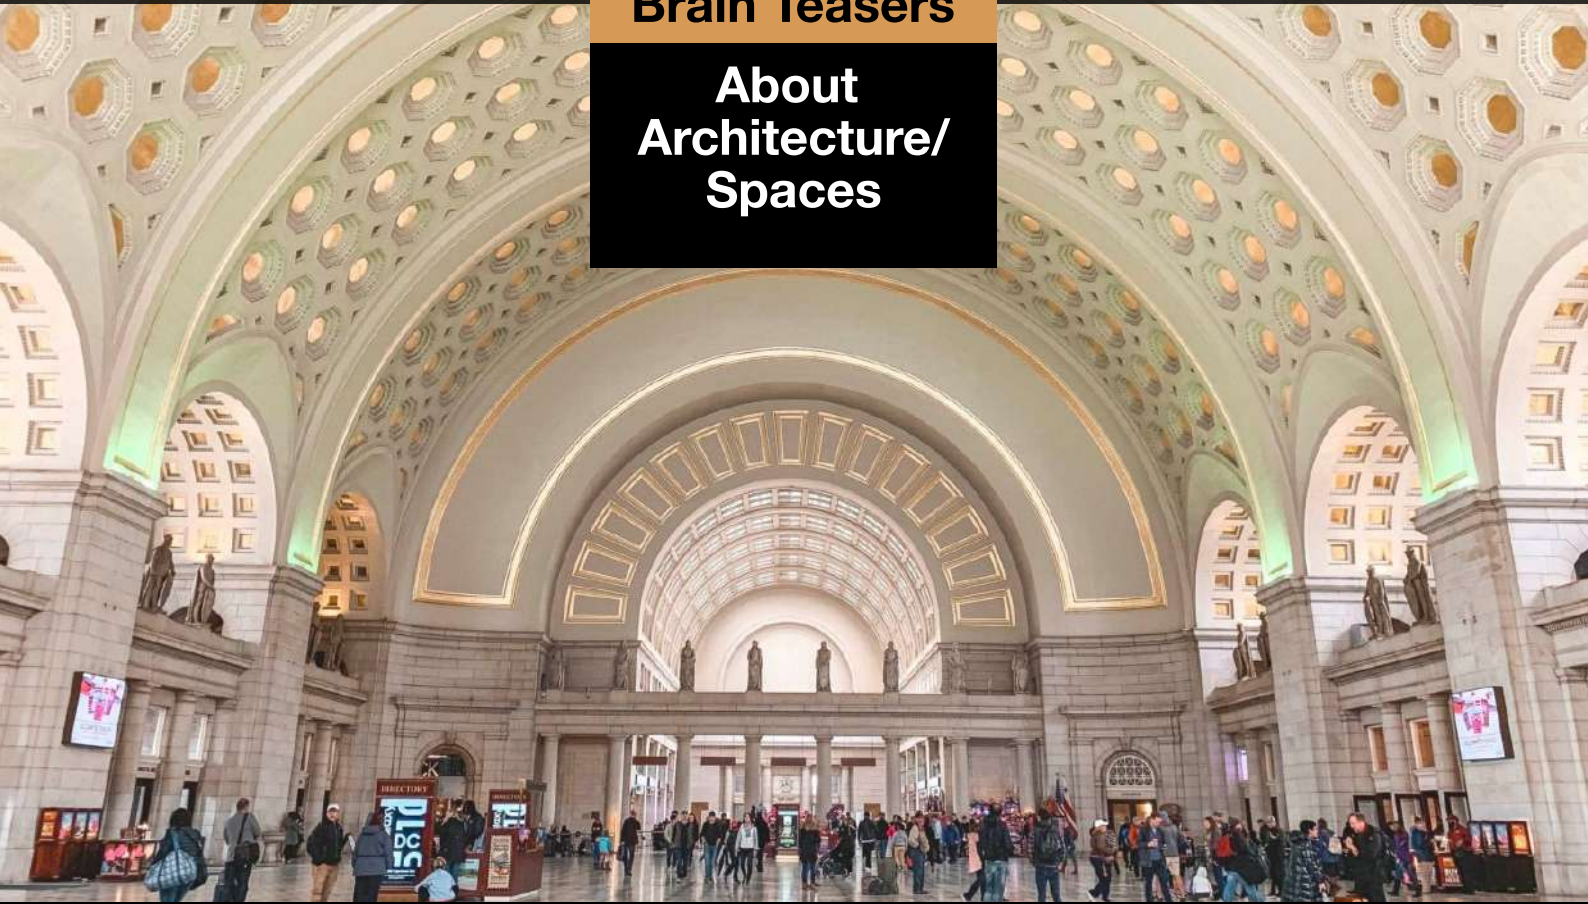

**"Spektra
Global:
Dream it.
Live It."**

Brain Teasers

About Architecture/ Spaces

Q.

Which city is this majestic railway station located in?

A.

Washington Union Station is a major train station, transportation hub, and leisure destination in Washington, D.C. Opened in 1907, it is Amtrak's headquarters and the railroad's second-busiest station with annual ridership of just under 5 million and the ninth-busiest in overall passengers served in the United States.

Message From the CEO:

William Halm

It's not worth starting your day with broken pieces of yesterday, as it will surely destroy your wonderful today and ruin your beautiful tomorrow.

As we welcome the new year, let's continue to push the limits of design, leaving behind a legacy of innovation and beauty. Wishing you all happy holidays and a prosperous new year.
